DNA for Genealogy

George Spracklin will be showing a PowerPoint presentation at our meeting on August 1st, explaining how DNA

sequencing can be used to trace ancestry. The three main types of DNA analyzed

= Adenine
= Thymine
= Cytosine
= Guarine
= Phosphate
backbone

(mitochondrial, Y- chromosome and autosomes) for genealogy will be examined with examples of how each has been used in genealogical studies.

Spracklin graduated from Massachusetts College of Pharmacy and Health Sciences with a B.S. He then worked as a research assistant at Cambria Biosciences and Massachusetts Institute of Technology before joining the Genetics Department at UW-Madison as a graduate student. George is currently in his third year working in Scott Kennedy's lab investigating epigenetic inheritance in *C.elegans* (roundworms).

More technical information about DNA can be found in the **Hartnell College Biology Tutorials** (source of the DNA photo) http://www.hartnell.edu/tutorials/biology/dnareplication.html

Tour of the Wisconsin Historical Society

On Saturday, July 13th, sixteen members of DCAGS attended a tour of the Wisconsin Historical Society on State Street.

Jim Hansen was our tour guide. He explained what information and facilities were available in the reading room. He also told us of the restoration of this room. (continued on page 3)

Captured For All Time: Recording Family Voices to Preserve and Pass Down

Recording oral history and family stories can be the perfect way to preserve and share your family history. Audio can be more ideal than video because the file sizes are smaller. Also, relatives may be less inhibited when recording because audio is less intrusive. Find out from Marian Pierre-Louis the best way to record and save audio files so that they become a permanent part of your family history.

2013 Bus Trip to FGS

The Minnesota Genealogical Society (MDS) is going to the *Federation of Genealogical Societies (FGS) Conference* in Fort Wayne, Indiana, and you, too, can ride the bus!

The bus will leave Minnesota on August 20, 2013, returning August 25, and will have a stop near Madison, Wisconsin. If interested, please fill out the <u>registration form</u>. Someone from MGS will contact you to make pick-up arrangements.

President's Message:

I would like to know when each of you first became of member of DCAGS or one of its predecessor societies--your "start date," if you will. Our predecessor societies were "South Central," CAGSW, and Dane County Genealogical Society. If you joined since DCAGS was formed in 2006, I have your start date.

Just a rough estimate is great – I'm looking forward to see what the average tenure of our members are (and who's been a member the longest)! Please email or call me with this information.

Secondly, we have two research requests from folks out of state that I could use your help on. I'll give a brief overview of both cases below and if you'd like to help with either or both please let me know.

a) An individual is trying to fill in some blanks on her Wilkins family tree. Her Wilkins settled in the DeForest area in the 1850s and she's trying to determine if there are any descendants still on the land or in the area.

b) The other individual is trying to find information on some Browns that lived here as late as 1950 but disappeared from any records he has access to after that. This individual has offered a payment of \$10 to the group if we can assist him with his request.

I hope you are all having a wonderful summer and I look forward to seeing you on the 1st! Walker walker@viridis.ws

New Member

We have one new member to introduce this month, Brenda Outhouse. Her research interests include Kammer, Outhouse and Weeden.

Her geographic interests are Dane, Dodge, Green and Sauk Counties and Holland and Norway. If you would like to contact Brenda please let Walker know.

Did you go on a research trip this summer or attend a genealogy conference?

Have you met distant family members or cracked a brick wall? If so why not share you stories with your fellow DCAGS members. This

month's newsletter is smaller than usual since the newspaper editor is in need of news to share.

All you need to do is write up your article and email it to skubie27@live.com. Submit by the third Tuesday of the month. Trivia, recipes and stories are all acceptable.

Tour of the Historical Society (continued from page 1)

A lot of work and research went into recreating this room to its almost original glory. Because additional floors were added to the building, the original skylights are now electronically lighted. They are beautiful.

Jim took us to the archives area on the fourth floor and we toured the card files and microfiche area and learned how to find what you need on microfilm. We were also shown how to use the card system to print out information. Our tour lasted almost an hour with a lot of good information given.
